

# ANAY DESHPANDE

Curious and adaptive computer science undergraduate skilled in development, management, and finance. I have earned my proficiency in computer applications via apprenticeships and academic education. I am seeking to leverage my skills, acquire in-depth knowledge, innovate and excel with collaboration, and take up more opportunities.

## PROJECTS

### WYDRN - Social Network

A modern feature-rich social media web app engineered using PHP, JS, AJAX, MySQL, and API services that allow users to log, view, share, and export their movies, books, video games, albums, and TV shows.

### VocabularyCLI

A lightweight Command Line Interface that allows users to look up word definitions, examples, synonyms and antonyms directly via the command line. Powered with several utility based commands it offers rapid and robust Knowledge Base capabilities like Flashcards, Tagging, Word Management, Graph Reporting, Bulk import and export of word lists and is a definitive software for linguaphiles.

## Volunteering

- I was a part of the organizing team of BMCC Troika 2021.
- I am working with Foliage Outdoors since 2018 to conduct treks, camps and team building activities.
